EXPERIENCE

Intern Celebal Technologies

06/2023 – 08/2023

React Developer

Pune, India

- Developed 3+ responsive websites using React.js, reducing load time by 40%.
- Collaborated with 5-member team to deliver projects within deadlines.
- Implemented responsive design best practices for cross-device compatibility.

PROJECTS

StockGenius

AI stock analysis website

- Built StockGenius using MERN stack with real-time WebSocket streaming for 50+ stocks.
- Integrated Gemini AI, cutting user analysis time by 40%.
- Improved API speed by 70% via Redis; UI loads in under 200ms with React + Tailwind.

AI Code Reviewer

- Designed a user-friendly interface allowing developers to input code and receive instant, detailed AI-generated reviews, streamlining the development workflow.
- Implemented custom theming system and responsive design principles.
- Technologies: ReactJS, Framer-motion, TailwindCSS.

EventIT

A personalized calendar app

- Built **EventIT**, a personalized calendar app enabling users to schedule, track, and manage events with smart reminders and a clean UI.
- Designed a **responsive front-end** for seamless cross-device experience.
- Technologies: ReactJS, Framer-motion, shadcnUI, TailwindCSS.
